

Kelvin Mukaria

SOFTWARE DEVELOPER

Nairobi, Kenya | 0705752300 | kmukaria@agrimis.org | [linkedin.com/in/pazinstar](https://www.linkedin.com/in/pazinstar) | github.com/pazinstar

PROFESSIONAL SUMMARY

Software developer with a degree in Mathematics and Computer Science and hands-on experience building full-stack web and mobile applications. I enjoy designing and maintaining reliable software that solves real problems for users, working comfortably across backend, database, and frontend as well as Linux server environments. I am a strong problem-solver and a dependable team player, committed to writing clean, maintainable code and continuously learning new technologies.

TECHNICAL SKILLS

Languages

Python PHP JavaScript Kotlin SQL

Frameworks

Django CodeIgniter Laravel React Flutter Bootstrap jQuery

Databases

MySQL PostgreSQL SQLite

DevOps & Tools

Git Linux / Ubuntu Apache Nginx Gunicorn REST APIs

Cloud

Contabo AWS Alibaba Cloud

Other

Problem-solving Teamwork Communication Documentation

EXPERIENCE

Software Developer

2024 – Present

Optimerce Consulting Ltd — Nairobi, Kenya

Design, build, and maintain full-stack web and mobile applications as part of the development team, contributing across the full software lifecycle — from gathering requirements and developing features to testing, deployment, and ongoing support — while collaborating closely with colleagues to deliver reliable, user-focused solutions.

Software Developer

2024

Mundu Agricultural, Environmental & Educational Organization (MAEEO)

- Developed web and mobile solutions supporting the organization's agricultural, environmental, and educational programmes.
- Worked with stakeholders to translate requirements into working applications and iterate based on feedback.

Software Engineer (Contract)

Dec 2025 – May 2026

StoreSure — Startup

Engaged on a six-month contract to design and build a school management system from the ground up, delivering modules for inventory, procurement, and finance within the agreed timeline while working closely with the founding team to meet their product requirements.

Tutor

2024 – 2025

Qubit Institute of Technology

- Taught programming and software development fundamentals, mentoring students through practical, project-based work.

SELECTED PROJECTS

AgriMIS / DairyMIS — Cooperative Management Platform. A full-stack platform for dairy and agricultural cooperatives, covering member management, inventory, deliveries, and reporting, built with a PHP/MySQL backend and an AdminLTE web frontend.

StoreSure — School Management Software. A management system for schools handling inventory, procurement, and finance, streamlining stock tracking, purchasing workflows, and financial records in one platform.

Qara Homes — Real-Estate Platform. A property-listing platform with a Laravel backend and Vue/React frontend, featuring bulk SMS notifications with delivery-status reporting for customer engagement.

Top Farmer — Android App. A mobile application integrated with the AgriMIS platform that gives farmers convenient access to cooperative services directly from their phones, bringing deliveries, records, and updates closer to members in the field.

EDUCATION

BSc, Mathematics & Computer Science — <i>Machakos University, Kenya</i>	2020 – 2024
Certificate in Computer Packages & Internet Usage — <i>Mkenya Computer College</i>	2019 – 2020
KCSE Certificate — <i>St Massimo Secondary School</i>	2016 – 2019

CERTIFICATIONS

AWS Certified Cloud Practitioner — <i>Amazon Web Services</i>	2025
---	------

HONOURS & AWARDS

- Won cash and a trophy at a hackathon held at Daystar University.
 - Awarded a research grant from the University Research Department to implement an innovative idea.
- Appointed Student Ambassador, Ajiry Center.
 - Elected Projects & Innovation Lead, Machakos University.

LANGUAGES

English — Proficient · Kiswahili — Fluent
